Availability guide · No pricing

✉ sales@fpgwholesale.net ☎ 305-266-2296 Questions or orders?

29	5	4
door styles	collections + custom	manufacturers

This catalog displays the interior doors available from FPG. We also offer custom options for some door designs; contact us for details regarding custom options, current inventory, pricing, and lead times. This catalog only indicates if items are stocked, not current inventory and availability.

✦ PREHUNG, SLAB, POCKET, BARN & BIFOLD

All of our interior doors can be ordered pre-hung in a frame, or as a slab only. These slabs can be used in pocket door and barn configurations as well. Our door designs are also available in bifolds, with some limitations based on size. Details and information regarding configurations can be found in our "How to Order a Door" informational catalog.

HOW TO READ THIS CATALOG

W ↓ H →	80"		84"	
	HC	SC	HC	SC
24"	●	✶	○	✖
28"	●	●	✶ ○	✶

1. **Find the width** down the left side (door width in inches).
2. **Find the height** across the top: 80" (6/8), 84" (7/0) or 96" (8/0).
3. **Pick the core.** HC = Hollow core, SC = Solid core.
4. **Read the symbol** where they meet. Two symbols mean both options apply.

● Stock item ✶ Available by special order ○ Made to order ✖ Unavailable

! Yellow notes are important restrictions or conditions. Read them before ordering.

i Grey notes are product details (sizes, louver heights, materials).

Stock symbols show what FPG normally stocks, not live inventory. Contact us to confirm availability, pricing and lead times.

SECTION

Shaker Style Doors

Shaker Doors are modern, stile-and-rail doors featuring clean, straight lines and 90 degree, straight-cut sticking. Standard shaker doors are available in 1,2,3, and 4 panel designs, with more panels available via custom orders. Doors come standard as pine finger joint stiles with primed MDF veneer. Also available in different wood veneers/solid wood by custom order.

SECTION

Hollow Core Classic

Classic hollow core doors are molded designs with traditional shapes and panels with waved sticking. Hollow core doors are lighter, and more cost effective for rental projects, or for the budget-conscious buyer. Many designs are available in solid-core by special order for those desiring better noise reduction and longevity in these timeless, yet traditional designs.

Birch & Carved Line

Flush & Carved Line doors provide simple, yet elegant design language for those with gentle taste. Hollow core doors with lines are molded, rather than carved- while any design featuring straight lines can be made to order in a solid core birch door. Our birch doors come unprimed, and can be stained or painted to your choosing.

SECTION

Glass Doors

Glass doors are an elegant way to elevate the quality and style of your home. Glass doors increase the lighting in every room they are installed on, and can be used as an accent/statement piece, or used on every door to allow light into your whole home naturally. Custom glass door information can be found in the custom door section of our catalog.

SECTION

Custom Doors

Custom doors are available in almost any design that Masonite carries. Panels can be replaced with glass, doors can have tops rounded, sticking can be changed- and the material can be changed to a selection of woods. These doors are only available as solid core, and bifolds can be made of most designs. Please note that the lead time on these items often exceeds 8 weeks. Please visit us at our showroom to see all available options.
